Happy Halloween!
Bring a little #spiderpride to your fright night with this Spider stencil.

1. Print this stencil.
2. Remove top of pumpkin and clean out with a metal spoon.
3. Place paper on pumpkin, taping in place.
4. Using a push pin or toothpick, poke holes along the outline of the web and then along the outline of the Spider.
5. Remove stencil.
6. Following the holes you created with the push pin, cut out the areas that appear in black on the template.
7. Place lit candle or other light source inside the pumpkin and show your spider pride!
